Vikings 27-20. But the home town boys went into the game with lots of spirit — much of it sparked at the Thursday pep rally complete with bonfire and cheers.

Last Friday morning was miserable with rain, the afternoon perfect for the Homecoming parade, with the evening again miserable with rain.

JV's Defeat Lake City, 32-14

At Bellaire On Tuesday, Oct. 29

Like old man river, the Grayling JV's just keep on rolling along.

The little Vikings had no trouble at all as they ran over an inexperienced Lake City JV team 32-14 last Thursday evening.

In the first period Grayling scored the first three times they had the ball as Greg McClain scored from three yards out after a sustained drive. Murray Babbitt ran for a TD on a reverse covering 35 yards and a reverse pass play from Babbitt to Leonard Leininger for a 40 yard TD.

Jim Corlew scored the first extra point on a guard eligible pass play and Ken Bindschätel made good on another XP as Grayling led 20-0 at the end of the first quarter.

In the second period an all-freshmen backfield scored the fourth TD with Kim Parkinson scoring on a quarterback sneak from the one yard line. The half-time score was 26-0.

Coach Smith then began to use all of his bench, for the remainder of the game except for a series of plays in the fourth period when the regulars pushed across the fifth TD with McClain going the final 10 yards. Lake City's two touchdowns came on long passes as Grayling squashed the ground game.

Due to a conflict in the schedule, the little Vikings will not play Roscommon on October 24. To fill the vacant spot, the Grayling JV's will play Bellaire there on Tuesday, Oct. 29 for their last game of the season.

bombs to nearly pull the game out of the fire.

Both teams moved the ball well in the first quarter only to have drives stall inside the 10 yard line, with the quarter ending scoreless.

In the second period, Potosky took advantage of a Viking error as Dale Horstman, Crusader halfback returned a short kick 30 yards for the first score of the game. The extra point was good and Potosky led 7-0.

With only 9 seconds remaining in the first half the Crusaders again hit the end zone on a 7 yard run by Bob Wolf. The point after was good leaving Potosky 14-0 over the Vikings at half-time.

Potosky spent little time at the start of the second half to ring up their third score. The Vikings kicked off, and with 10:51 left in the third period, Norm Chingwa hit the end zone on a 30 yard run. The extra point was missed, leaving the score 20-0.

The Crusaders again lit up the scoreboard in the third period as Wolf scored his second TD on a 7 yard run with 3:21 left in the quarter. The point after was good and they held a commanding 27-0 lead going into the final quarter.

All but dead, the Vikings then unleashed an aerial attack that found quarterback Bruce Burkett teaming with Allen Lowe on a pass covering 80 yards and the Vikings first TD. Burkett ran the XP and Grayling was on the scoreboard 27-7.

Study Underway On Airport Plans

Since obtaining a lease for the City of Grayling July 15th, Chairman Arnold Mauren of the Airport Advisory Committee stated negotiations are underway now on the design for construction of the civilian section of the airport, adjacent to the present Grayling Army Airport.

Chairman Mauren met Saturday afternoon with the contractor to go over ideas and plans.

It is planned to create an Airport Authority before long, which will have charge of operating the civilian section.

County Budget Adopted

Public Hearing Set for Oct. 31

A public hearing on the 1969 Crawford County budget—which shows an increase of about 20 percent over the present county operating budget — has been set for Oct. 31 at 1 p.m. at the Court House in Grayling.

The new budget totalling \$228,487 in spending for the coming year was adopted by the County Board of Supervisors last week. This is about \$38,000 more than the \$190,559 approved a year ago for expenditures during the present year.

The county budget makers figured they would have 1969 revenue of \$177,729 from property tax sources based on operating millage of 7.67 mills on valuation of \$23,172,000.

They also figured on other non-tax revenue — mainly from fees, state reimbursements, and similar income — that totals \$60,533.

That makes total expected income for 1969 of \$238,262, which will leave \$9,774 of unappropriated funds which is detailed in the budget as "unexpected outlay."

One reason the budget will be higher next year is that supervisors granted a 5 percent pay hike for all elected county officials, and a pay increase for non-elective employees that ranges upward slightly from 5 percent.

Another reason is that the new district court system, which begins in January, is expected to cost the county \$9,850 compared with expenditures of \$350 under the present justice court system.

Marine law enforcement is in the new budget for an increase from \$10,925 to almost double that figure — up to \$20,998. The increase reflects added emphasis placed on marine law enforcement within Crawford County. The state reimburses the county up to two-thirds of its expenditures — which accounts for much of the anticipated increase in non-tax revenue for the coming year.

Based on experience under the new county ambulance system, the board budgeted \$9,925 for this service — up \$3,000.

Yet another reason for the budget increase will be operation of the new county building, expected to be ready about mid-year. Janitor salaries are up from \$1,200 to \$5,200, and another \$3,200 is budgeted to pay for someone to supervise construction on the new building. However, the 1969 budget does not repeat the \$15,000 in this year's budget to the County Building Authority to help finance the building.

Heavier court activity also is expected to cost the county more money next year. Supervisors budgeted \$3,500 for jury fees instead of the present \$1,500, and another \$3,300 for attorney fees instead of the present \$300. The county expects to have to furnish and pay for more attorneys for defendants, officials said.

Supervisors also budgeted new items next year of \$2,000 for per diem and mileage for members of the new Economic Development Commission and \$4,000 for construction later next year of an animal shelter for dogs at the new county building site.

Below is a function by function table of the 1969 budget compared with the present year's budget. The biggest drops appear in the Sheriff's budget of almost \$8,000 — which reflects setting up marine law in a separate category — and in the appropriations section — which reflects dropping of the \$15,000 appropriated this year to the County Building Authority.

Next week's Avalanche will carry an itemized version of the budget as approved by supervisors, subject to final adoption after the public hearing.

Supervisors last week also approved apportionment of valuations, assessments and tax rates among the various townships and the City of Grayling. These details also will appear in next week's Avalanche.

The Grayling Regional Chamber of Commerce announced that Lon Qualls, owner of Spike's Keg O' Nails has been appointed chairman of the Chamber Winter Activity Committee.

Meet Our New Teachers

Our new teacher this week is James Holz from Spring Lake Park, Minn. — a suburb of Minneapolis.

Holz graduated from the University of Minnesota, earning his Bachelor of Arts in June of this year. While attending the university, he majored in political science and minored in English and speech.

He teaches eighth, tenth and eleventh grade English and is advisor to the school's newspaper "The Highlite."

Holz likes hunting and fishing and has expressed great interest in our many trout streams. He is an "amateur" skier, as he put it, looking forward to our first snowfall.

Holz enjoys living and teaching in our community and wishes to take this opportunity to thank all the people of Grayling who have been so friendly and helpful.

Senior Band At Bellaire

The Grayling senior band attended the Autumn Festival Parade in Bellaire, on October 12.

This parade is an annual affair, and many people lined the streets to watch the floats, and to hear the bands.

From all the reports on the parade, we can be proud of the band, as it was the best dressed, sounded well, and looked like a well trained marching unit.

Our work in practicing really paid off, as the crowd applauded the group with a lot of spirit, and compliments.

To reward the Senior Band for their efforts, we will take a trip to Central Michigan University to watch their famous marching band and football team.

Patricia Christian is the drum majorette, leading the band, and has in her team of majorettes; Mary Wilson, Marie McIsaac, Claudia Heigl, Color guards; John Wilcox, Wayne Carter, Clark Wilcox.

This committee has programmed the entire winter activity for Grayling and Crawford County.

The activity for the winter of 1969 will encompass many things. The first 1969 M.S.A. sanctioned snowmobile race in northern Michigan will be held on Jan. 5. Several guided snowmobile safaris have been planned with dates set on Jan. 4, 26, Feb. 8, and March 16. The grandfather of all winter sports carnivals will be Feb. 7, 8, and 9, when the carnival queen, Miss Michigan Winter Sports will reign over the 44th annual carnival weekend. On Feb. 16-18 Grayling will host the Annual Lake Margrethe Sports Car Ice Run.

Working closely with Lon Qualls on the snowmobile event will be D. L. Riddle, president of the Grayling Trailmasters Snowmobile Club, and a director of the Michigan Snowmobile Association.

The Grayling Trailmaster Snowmobile Club has marked 200 miles of prime family fun snowmobile trails in Crawford

County, and in addition to the marked trails there are well over 2000 miles of trails traversing the thousands of acres of military and state land that makes up 65 percent of Crawford County.

This is a land adapted to snowmobiles with forested trails, rolling hills, and a land without fences or no trespass signs.

Cross Drive Underway

Annual door-to-door campaign for funds to carry on local cross services started at 9 a.m. Wednesday, Oct. 9 with a soft brunch at the American Legion Hall. Auxiliary members serving as the Fund takers.

For the occasion were William Harkey, regional representative, an ARC volunteer from Midland, and John Higgs, regional chairman of the Michigan ARC. Also a volunteer worker.

Informal discussion on the need for raising, and related needs and services, was held on. From some of the questions at hand, we found that ARC with over two million members has 165 volunteers per each paid worker.

Nationwide ARC serves 4300 homes in its blood program. For every percent of the total national budget goes toward service to our Armed Forces. Only one of every dollar received goes overhead. The vast majority goes to help keep the blood supply at the lowest of any other found in business. Our national chairman receives \$40,000 a year. This in no way compares with the pay received by executives in industry who have no responsibilities.

Our goal for '69 is \$2200. The budget for Crawford County shows a need of \$450 for the military families, \$50 for the military families, \$50 for the military families.

Master (we fed the firemen May 8), \$497 for the program, \$210 for 10 a.m. public relations and office expenses, the balance \$993, is estimated share of National.

I thank you for your support the past. Both you and I can and should, give in this campaign. How many of you have given a thought to how much the blood supply is used in support of our needs?

Join to Stamp Out Litterbugs

LANSING — Intensified joint efforts of the Michigan State Police, county sheriffs departments, and the Michigan Department of Conservation are being pinpointed at stamping down on littering along this state's highways, shorelines, and recreation areas.

The local and state agencies are backing up their united anti-litter appeal to the public with stern law enforcement.

Through the end of July, State Police officers brought 484 offenders to court for violating Michigan's litter laws. Up to that same point, conservation officers had made 76 arrests for littering on state recreational lands. Reports are incomplete on litter arrests made by local county sheriffs departments.

A veteran conservation officer remarks that littering is one bad thing which leads to another. The "bite" of the litterbug, he says, is contagious and the best way to keep it from spreading is to act firm and fast against the first offenders so others don't get the same idea.

And that is just what these state and local law enforcement agencies are doing.

Out The Vote

In the last election, one third of the nation's citizens failed to vote and thereby carry a first obligation that every U.S. citizen owes himself and his country. Between now and election day, every voter should take time to familiarize himself with the candidates and the point of they represent.

In this year's general election, the American will select a President and thousands of office holders including U. S. Senators and representatives, governors and state legislators. Officials will make and administer the laws of the land under which we all must live. They will determine the role of government in our lives, the amount of taxes we must pay, the wars we must fight and how many of our young men must serve in the armed forces and for how long. Every voter owes it to himself to take part in the best men and women to carry out vital functions.

If you expect to be away from home on election November 5, arrange to cast an absentee ballot. It is estimated absentee voting accounts for one per cent to six per cent of the total vote. An mean victory or defeat for the candidates is in your choice. This November, know the issues the people — then VOTE.

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES OF THE AVA LANCHE OF 23 YEARS AGO

Oct. 25, 1945

James A. McClung and his son, Charles, are pictured above dressing out the 250 pound bear which caused such a commotion in Grayling last Wednesday. Mr. Bear apparently started the day off all right, but about noon-time, he charged at Fred Bayne of Grayling, who was bird hunting in Moshier Swamp, four miles north of town. Bayne gave the bear two charges of bird-shot in the face and then "high-tailed" for his car. Our hero, "Mr. B.," then decided to go places and continued his trek along Highway 27 to the Airport, where he dropped in for a short chat. Finding he was not welcome, he continued his sojourn into the northern fringes of Grayling. James A. McClung, a newcomer to Grayling, was working on his new home at 503 McClung St. when he spotted the bear approaching. Later, he couldn't say just how he got down from the roof, but he did, grabbing his deer rifle which his son had brought for him. McClung missed on his first shot, but the second knocked Mr. B. for a loop — but he wouldn't stay looped. McClung, who had but two shells, followed up his quarry, clubbing him on the head with his rifle butt. He was soon reinforced by Sheriff John A. Papendick, who poured two loads of buckshot into the 250 pound brute. Mr. B. absorbed it, and after hitting the dirt each shot, was on his way again. Following the second load of buckshot, the bear ran into the front fender of the Sheriff's car, but gained his feet again and continued on his merry way. One last slug by McClung with his rifle butt put the bear down for good (and, incidentally, finished Jim's rifle stock, too). Eight pistol shots were then fired into the reeling brute and the animal's throat cut for safety's sake.

Flery disaster struck Grayling early Tuesday morning when the home of Erwin Wales on Clyde St. was completely destroyed by fire.

Martha and Maryda Stillwagon spent the week with their grandparents.

Mr. and Mrs. Ernest Borchers and daughter, Miss Barbara, left for Mt. Pleasant Monday where the latter will start her freshman year. Also attending Mt. Pleasant is Miss Fay Christenson, who is in her senior year. A birthday cake resembling a lamb, covered with coconut and topped with pink candles was the center of attraction when the morning kindergarten class helped Mary Ann Cinciala to celebrate her fifth birthday. The class sang happy birthday to her and of course they had ice cream too.

Mrs. Faith Nolan, daughter of Mrs. Howard Nolan, is now employed at the Boy Scout office in Midland.

Mr. and Mrs. Earl Wood and family of Midland spent the weekend at the home of Mrs. Ellen Felling in Maple Forest. They had as their guests Mr. and Mrs. Glen Smith of Lapeer.

The Kenneth Ashton family spent the weekend visiting relatives in East Jordan and Petoskey. Mr. Ashton is employed at Dore Manufacturing Co. The family moved here recently from Cheboygan.

George Burke reports that he is receiving a big demand for Delco lighting systems. The last one to be delivered is for the Johannesburg Manufacturing Co. to be used in their lumber camp.

Mr. and Mrs. Paul Ziebell and daughter Miss Helen, enjoyed a 200 mile motor trip Sunday, visiting at Oscoda and Ausable.

Clare Cameron of Sigma spent Sunday visiting his parents, Mr. and Mrs. Harrison Cameron and family. He was accompanied to his school by James Reynolds.

Fred Welsh is putting a new addition to his home on Michigan Avenue.

Mr. and Mrs. M. A. Atkinson and daughter Clara, motored to Bay City Saturday, returning Sunday. While there they visited the former's parents, Mr. and Mrs. Aleck Atkinson, who accompanied them home for a visit.

Mrs. Walter Nadeau was hostess to the Nona Such "500" club at her home Tuesday afternoon. Mrs. Benton Jorgensen held the highest score and Mrs. T. Klingensmith received the consolation prize. Mrs. Ambrose McClain, Mrs. Holger Hanson, and Mrs. Louis Kessler were guests of the club, the latter winning the guest prize. Last week the club had an enjoyable potluck at the home of Mrs. Klingensmith.

Mrs. Carl Nielson returned Tuesday from Bay City where she went to attend the wedding of Miss Agnes Suve to Gilbert LaLonde, that was solemnized last Wednesday morning. The bride who is a sister of Mrs. Alfred Bebb, has made frequent visits in Grayling.

STYLE TIPS FOR FALL — Skirts long, draped to one side, narrow about the ankles; waists bloused over wide or narrow belts which circle the hips; brilliant colors in embroideries, stitching and beaded designs — these are the distinguishing features of the autumn fashions in dresses and suits as offered by retail merchants.

Wired lace, spangled with pearls and rhinestones and joined to a jeweled band furnish the most elaborate of headresses for evening and the metallic clothes inspire many draped turbans which appear to wound about the head. Diadems, coronets, bandeaux and garlands made to encircle the heads of beauty are all in the running for coming winter gaities with bandeaux and garlands far in the lead. In addition to all these, combs in many shapes and colors set with mock jewels will add to the sparkle and glitter of the dressy coiffure.

Soil Conservation District To Sell Trees and Shrubs

The Crawford-Roscommon Soil Conservation District will sell trees and shrubs for forestry and wildlife plantings in the spring of 1969. Although prices have not been set, the District will begin accepting tentative orders for trees and shrubs immediately. A price list and order form will be available by the end of the year.

The Crawford-Roscommon Soil Conservation District began to set plans for their tree sales program after they held a joint meeting with the Wexford Soil Conservation District. The Wexford District Directors talked about their very successful program and gave the Crawford-Roscommon Soil Conservation District Directors several good suggestions on how to start a tree sales program.

The Wexford SCD noted that they had sold over two million trees since 1949. However, they said that much more was needed. The popularity of tree planting is high in the Wexford SCD and the demand often outstrips the supply. The Wexford SCD buys trees from several Soil Conservation District nurseries, in and outside of Michigan plus the Michigan Department of Conservation and private nurseries.

There are thousands of acres of land in the Crawford-Roscommon SCD that can benefit from tree planting. The 1968 Conservation Needs Inventory indicates that there is over 100,000 acres of poorly stocked timber land plus nearly 10,000 acres of former cropland that is now idle in the district. All of this land can benefit from tree planting.

Tree planting produces many benefits. It produces timber for future needs, a young stand produces wildlife cover and food, a young pine stand produces winter cover that can replace browsed out swamps, plantations improve the appearance of the countryside, and, by improving the appearance of land, trees increase the value of the land. Trees can return your investment either as timber sold at maturity or by increasing the value of your land so that the sale price will exceed the purchase price.

Shrubs also produce wildlife food and cover. Shrubs will continue producing good wildlife habitat, whereas, trees eventually

port is the result of a
study made by Lou
iggins for the AuSable

River Watershed Study Council
this past summer. Funds for
the report came in the form
of a grant from the Water Re-
sources Commission.

Much stream bank erosion
was cited. Some of it was nat-
ural erosion that occurs at
bends in the river, however, if a
person owns land at the bend
he is interested in stopping the

erosion. The report tells how to
do it.

Much more erosion was caused
by over-use and mis-use by
man. Suggestion for correct-
ing this erosion is also made in
the report.

The report is available to any
property owner by contacting
the Cooperative Extension Serv-
ice office in Roscommon.

It is suggested that expert as-
sistance be sought before at-
tempting erosion control. This
help is available from the Co-
operative Extension Service, Mich-
igan Department of Natural Re-
sources (Conservation Depart-
ment) and Soil Conservation
Service.

These are the things to look for in a great road car. And every day
more and more people are finding them in the 1969 Ford.

Wider. The '69 Ford hugs the road with a wider wheelbase
track as Cadillac.

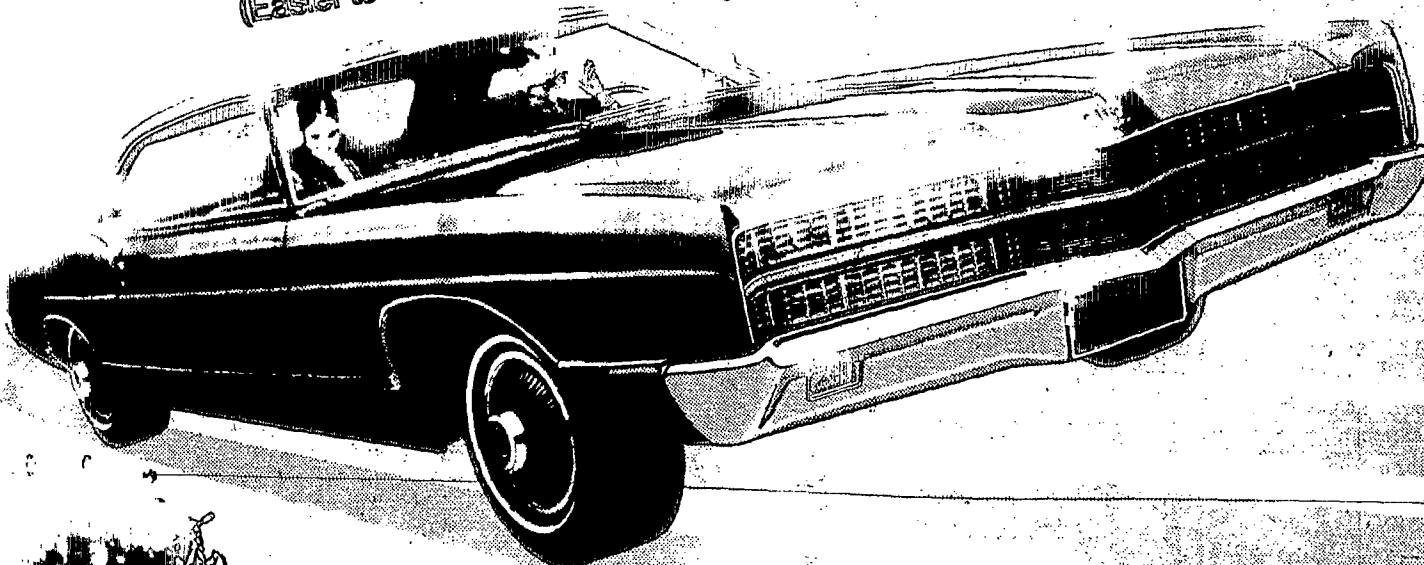

Longer. The '69 Ford smooths your ride with a longer wheelbase
than Chevrolet. Yet it turns in a smaller circle than last year's Ford.

Roomier. We've grouped all the controls in front of the driver,
made our front passenger compartment so spacious people are
calling it the Front Room.

Quieter. Our '69 LTD is designed to ride even quieter than the
LTD that rode quieter than Rolls-Royce.

Record first-month sales of the '69 Ford tell us we've got a
good thing going. A test drive will tell you.

Nov. 5 Deadline for Seeking Tax - Delinquent Property

LANSING — Conservation Department land officials are sounding the last call for about 6,000 former landowners who forfeited their holdings to the State through default which originated in 1935.

Their now-or-never reminder is short and simple: These ex-landholders have only through Tuesday, Nov. 5 to make their final attempt to regain lost property which they owe taxes on for the last 5 years.

Until then, they can take the first step in that direction by petitioning their local units of government to pass resolutions urging the Conservation Department not to put their tax-reverted lands on the auction block at public sales.

With favorable action at the local level, they can get the State to turn back deeds to their lost lands by paying their "I.O.U.'s" — back taxes, interest, and penalties to city or county treasurers.

The list of lands that still can be recouped through these procedures includes vacant lots, industrial buildings, and other properties which range in value from \$100 to \$30,000 — \$40,000 per unit. They are located in most of Michigan's 83 counties. About one-third of them are in Wayne County and a good number of others are in the western end of the Upper Peninsula.

The regular October meeting of the Executive Board of M.E.A. Region 14 was held at Schlang's Restaurant, Gaylord, on Wednesday, Oct. 16, at 5:00 p.m. Minutes of the previous meeting were approved. The first item was the acceptance of an invitation from the Superintendent of Schools in Cheboygan to have the Cheboygan Public Schools serve as hosts for the 1969 fall teachers' conference. Simon Hermannson of Cheboygan was appointed as chairman of the early elementary division for the conference. It was announced that a workshop in school finance would be held at Gaylord on Oct. 19, with all superintendents, school board members, and negotiators invited. A discussion of state retirement followed. Special concern was shown for the \$50 million dollar uninsured loan made from the teachers' retirement fund. The loan has been made to the Holbrook Estates by State Treasurer Allison Green. The final item of business for the executive board was a discussion of the "Northern Lights," the official publication of the M.E.A. Region 14 Council.

Following dinner, the full council went into session at 7:00 p.m. The minutes of the previous meeting were approved. The regional treasurer's report showed a balance of \$116.76 in the treasury. Karl Ohlendorf of Lansing, a member of the state M.E.A. staff spoke on "Human Relations." He stressed the need for an instruction council in this region. He urged teachers to get into politics. However, he reminded them that they should not do like the people in his homeland, Germany. He stated that one-third of the Nazi leadership were elementary teachers. We must, he said, send more of our teachers into politics but we must be certain that they express the ideas and desires of the majority of the people.

Maurine Wyatt, field representative from Traverse City, reported on the September meeting of the State M.E.A. Board of Directors, which was held in Marquette. She explained the newest regulations to be followed in the employment of an executive secretary for a local teachers' organization.

Lucille MacArthur, state M.E.A. director from Cheboygan, reported on her recent meeting in Washington, D.C. The theme of the meeting was "Teachers in Politics." By next year, she stated, 39 states will have a unified membership, the N.E.A. has had 300,000 new members with a cost of only \$10,000 to the National Education Association.

Speaker for the evening was Ned Bastow of Alpena, candidate for the State Legislature from the 105th District. He expressed his views on tax reform, air and water pollution, and gun control. He also stated that he favors giving the right to vote to the 18-year olds. Bastow is a political science teacher in the Alpena public schools.

The following regional chairmen were elected: Bill Schuler of Alpena, professional negotiations; Ruth Mead of Gaylord, Michigan education home association; Roger Gunn of Alpena, public relations; Cliff Buckmaster of Petoskey, resolutions; Bernard Scheele of Cheboygan, human relations; and Myrtle Gehrke of Alpena, teacher education and professional standards. The final item of business was the election of Joseph Beland of Alpena as vice president of region 14. Meeting adjourned at 10:30 p.m.

Attend The Church Of Your Choice

No. It's just a rope... at the breaking point. But, frankly, it's a good illustration of how a man feels when his nerves are "worn to a frazzle."

The Church has never claimed that religion is a cure for frazzled nerves. But a man's Christian faith does this for him:

It shows him a Purpose in life more important than mere existence. It shows him a Power more effective than his own strength. It shows him a Future more rewarding than selfish gain. And it gives him courage more lasting than the sheer force of his human will.

With these spiritual resources, founded in the certainty that God understands and helps, a man never reaches "the breaking point." For when his human reserve is exhausted... he has only begun to tap the vast reservoir of Divine Strength.

THE CHURCH OF YOUR CHOICE CAN SHOW YOU THE WAY!

The city of Grayling on the AuSable is currently deciding between two alternatives for bettering its treatment of municipal sewage. One would increase treatment efficiency. The other alternative would prevent any effluent, no matter how well treated, from entering the river. Both are expensive, and both

Dow Magazine Features AuSable River in Story on Clean Water

Rivers can be clean according to the current issue of the Diamond, quarterly publication of The Dow Chemical Company. To prove its contention, the Diamond offers as its lead article a story about the successful management of the AuSable River in northern Michigan.
The AuSable is one of America's best and most famous trout streams. Each day hundreds of people enjoy it, trout fishermen in the early morning and late evening, canoeists and campers throughout the day. Its banks are lined with vacation homes and retirement cottages. But the pressures of an increasing population and growing number of vacationers and sportsmen, property owners, and local state officials — have formed the AuSable River Watershed Study Council to manage the river and chart its future so that it can be both clean and useful.
The impetus provided by the Council has stimulated model zoning for the river, land use surveys, and dye tests to determine the contribution of septic tanks to river pollution.
The city of Grayling on the AuSable is currently deciding between two alternatives for bettering its treatment of municipal sewage. One would increase treatment efficiency. The other alternative would prevent any effluent, no matter how well treated, from entering the river. Both are expensive, and both

WASHINGTON AND Small Business
BY C. WILSON HARRIS
Token War Against Crime

In the nation's capital right now, bus drivers are not allowed to carry money to make change. Instead, they issue scrip to customers who don't have the right amount of coin or tokens, to drop into the box. The purpose of this order by the city's two transit companies is to reduce the amount of money bus drivers handle and make them less attractive holdup targets.

The public in Washington is advised that bus drivers no longer sell tokens. Handbills explain that scrip is being used by transit drivers and passengers from continuing and increasing crime.

The companies cite one murder of a driver and 479 holdups, many involving violence, within one year.

All around town, public transportation patrons are advised. "Have Exact Fare Ready" and "Bus Drivers Do Not Sell Tokens." Tokens can be bought and scrip exchanged for money at six offices in the city. Obviously, this inconvenience thousands of residents and tourists.

So the impact of crime in the streets is brought home to Washingtonians daily. It is hard to believe that this is happening in the nation's capital, where the Justice Department, FBI and Supreme Court buildings stand as graphic evidence of law and order machinery.

The tourist business has suffered badly in Washington from crime and recent civil disturbances, forcing the historic National Federation of Independent Business.

Washington's bus patrons face a case in point, as they are inconvenienced each day in an effort to save a bus from a violent "end of the line."

Students Released from Study Hall

High School Principal Elmer Fenton announced this week that release time from study halls is a new experimental program for the 11th and 12th grades. It is being tried to relieve traffic pressure in the hallways and study halls. It may also be viewed as an experiment in a sense to see if a student can handle more free time without it having an adverse effect on his responsibility in terms of being quiet in the halls while other students

are in class, leaving the building promptly, keeping up his grades and getting his studies done.

The 11th and 12th grades are the two classes that will be excused from all study halls.

"Release time from study halls should be viewed as a privilege by the students who are excused," Fenton said.

"They must understand their responsibility so they will not spoil it for someone else. Misuse of this privilege could result in the program being discontinued. If the present program works out successfully, other groups may be excused later."

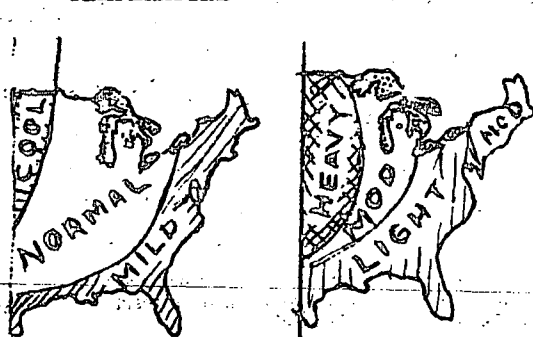

The following rules will govern the released time from study halls:

1. Students must leave building if they are not going to attend a study hall.
2. They will not be allowed to go to the gym during the released time.
3. Students must not return to school until time for the next class. Do not be late.
4. Leave quietly and promptly.
5. Students may not leave during a study hall. If students elect to remain in the study hall at any time the study hall teacher should be informed of this. They must remain for the full time.
6. Changes in the program may be instituted at various times.

'Pride and Prejudice' To Be Presented

"Pride and Prejudice," a costume play, has been selected as the Viking Drama Club fall production. A romantic comedy, the play is a dramatic adaptation of Jane Austen's classic novel. The story deals with the social life in England during the early 19th century. The theme centers around the family of Mr. and Mrs. Bennet and their five marriageable daughters.

Mrs. Bennet, a frivolous inventive matchmaker who takes refuge in imaginary ailments and complains piteously of her nerves, is played by Jaymie Post. The role of her husband, Mr. Bennet, a man with culture and a dry sense of humor, is played by John Hunter. Elizabeth, played by Debbie Nethers, is a modern girl born in the 1800's. She is a beauty who happens to have brains. More like her father than any of her sisters, she has a quick temper, proud spirit, and is unaffected and sincere. Mr. Darcy, a tall, handsome, aristocratic gentleman, secretly attracted to Elizabeth, is portrayed by Jim Kucharek. Patricia Christian portrays Jane, the eldest of the five daughters. Jane is considered the beauty of the family, who is always looking for an excuse for any questionable act committed by any person. Mary, age 18, the plain one of the family, and a bookworm, is played by Mary Hunter. She seems to be prepared to lecture on practically any subject. Mary is smug and pedantic, in direct contrast to all her sisters. Catherine, who is 17, and rather delicate in appearance, is played by Roxie Fisher. She is giggish when fun is in prospect, but, like her mother, she is inclined to whine when things do not please her. Lydia, who is played by Claudia Henig, is the youngest of the five sisters. She is frivolous and irresponsible and thinks of nothing but parties, officers, and clothes. Lady Lucas, portrayed by Nancy Burns, is a good friend of Mrs. Bennet's, though they are rivals in matchmaking, due to the fact that Lady Lucas has a daughter to marry off. Debbie Neiderer, plays the part of Charlotte Lucas. Charlotte, who is in her late twenties, is Elizabeth's special friend. She has a quiet and restrained manner, although lacking somewhat in feminine charm.

Max Tobin portrays the part of Mr. Bingley, a very handsome, moderately rich man. He has charming manners that seem to captivate everyone who meets him. Miss Bingley, in her twenties and very fashionably dressed, is played by Joy Rasmussen. Mr. Collins, a heavy-set young clergyman, with absurdly formal manners, is played by Mike Anthony. He pays court to Elizabeth, but when he finds she could not help his career, he loses no time in consoling himself elsewhere. Mr. Wickham, played by Mike Kucharek, is a handsome young officer who has undeniable charm of manner, but is untrustworthy and insincere. He is the part of the maid, who is quiet, unobtrusive, and efficient, is played by Susan Bourrie. Lady Catherine, who is played by Candy Henig, is the dowager type, expensively dressed, and superior in manner. She expects everyone to scurry at her least command.

The play will be presented November 14 and 15 in Grayling and November 18 in Frederic. All performances will start at 8:00 p.m. Tickets may be purchased from a n y drama club member after October 21 or at the door the night of the performance. Prices will be \$1.00 for adults and 50 cents for students.

Following the kickoff, the Viking defense held Petoskey on the 10 yard line. Burkett again combined with Lowe on a pass, this one covering 90 yards for the TD cutting Petoskey's lead to 27-14.

The Crusaders used a time consuming ground attack following the kickoff down to the 25 yard line. With 1:45 left the Vikings got the ball and again a Burkett - Lowe combination, this one good for 75 yards and their third TD. The point after was missed leaving the final score 27-20.

The Vikings held the edge in the statistics as they gained 496 yards total offense, with 356 gained through the air. They connected on 13 of 25 passes.

Coach Weiland's Vikings will now turn their attention to getting ready for this Friday night's clash with the Pellston Hornets and their final game on Nov. 1 with the Ironmen from Mancelona.

This Friday the Vikings will be making the long trek north to meet the Hornets who last Friday ran roughshod over East Jordan by a 53 to 19 score, which proves one thing, the Hornets do know how to sting.
